The active features were Atchison, Missouri
Pacific, Texas Pacific, Richmond & West
Point, St. Paul and the trusts. The only was C., C., C. & St. L., which made a sharp spurt in the last few minutes, trading and tose 1ts per cent., while Pacific Mail was the weak point in the list, dropping away npon certain election rumors. The uncertainty as to the complexion of the bank statement made the traders inclined to follow the lead of the "bears" and the demand was not quite sufficient to meet the pressure, but after the bank statement was issued there was a disposition to take in the short lines put out earlier, and a smart rally occurred in the last few minutes' trading, although the losses were not made up. The close was active and streng, generally at small fractions below last night's figures. Pacific Mail declined 11s per cent., but this, with the rise in C., C., C. & St. L., were the only important changes of the day.

Railroad bonds continued to exhibit the marked activity of the past few days, and

the sales for the two hours were \$1,895,000, out of which the Texas Pacific seconds furnished \$417,000, the Iron Mountain fives 205,000, the Wabash seconds \$179,000, and the St. Louis, Arkansas & Texas first receipts \$122,000. There was the same firm, strong tone, with little special feature to the dealings, and, notwithstanding the activity, the important movements in prices were few in number. New York, Susquehanna & Western seconds rose 5, to 78, and Iron Mountain fives 238, to 9478. The sales of bonds for the week aggregated \$16,288,000. Government bonds were dull and steady. State bonds were dull and without feature.

TRADING AT CHICAGO.

Wheat and Corn Nervous and Unsettled-Oats Weaker-Hog Products Dull. CHICAGO, May 10 .- Wheat trading was quite active again, but the volume of business not so large as during the preceding two or three days. The feeling developed was very nervous, and operators anxiously awaited the government report. Prices were irregular and covered a rather wide range. It was difficult to do any business in May, and trading in June was also rather unsatisfactory. Trading centered principally in July, with increasing business in the more deferred futures, The opening for July was 1120 1340 higher than yesterday's closured but quickly weakened, and prices 5.52 clongs and ribs, 5.75 5.87 20; short clear, 5.87 2060. Bacon—Boxed shoulders, 5.50c; longs and ribs, 5.90 6c; short clear, 6.05 6.10c. Hams, 10 212.50c. Receipts—Flour, 6,000 bu; oats, 13,000 bu; rye, 2,000 bu; barley, 1,000 bu. Shipments—Flour, 6,000 bris; wheat, 11,000 bu; corn, 78,000 bu; oats, 7,000 bu; rye, 2,000 bu; barley, none.

PHILADELPHIA, May 10.—Flour firm. Wheat quiet and nominal; fair to good millwas very nervous, and operators anxiously

declined with numerous small fluctuations
212c from top prices, ruled very irregular
within the established range, and closed
3sc higher than yesterday. May wheat
closed about 12@1c higher and June about
the same as yesterday. There was nothing
really in outside news to have caused the
unsettled feeling which existed, but the
uncertainty of the government report made
operators undecided which course to pursure, though the declining prices induced
many operators to sell. Therewas heavy
realizing during the session. Rain was reported in the Northwest. The condition of
wheat in California, it was claimed, was
65c, against 71c last month. St. Louis also
sent in some bullish news, claiming that
the crop of Missouri was reported 25 per
cent, short of an average. Corn was fairly
active and unsettled, the market ruling
firm early and weak later. Offerings were
heavy from all quarters, the country selling freely as well as local warehouse men
and room traders. The demand was confined mainly to "shorts." Receipts were
light and this and wet weather tended to
hold up values, though the firm opening
was due to the advance in wheat at that
time. The trade centered in July, and
there was heavy trading in this month time. The trade centered in July, and there was heavy trading in this month around 351sc. The market opened 12@5sc better than the closing prices of yesterday, but soon became weaker and declined, with slight reactions, 12@5sc, rallied a little, ruled steady and closed 14@3sc better than

Oats were fairly active but unsettled, but the volume of trade failed to reach the magnitude of yesterday. The opening was firmer and 12@114c higher on the leading futures owing to cold, wet weather and higher prices for wheat and corn. The highest prices son, 16,045; Delaware, Lackawanna & Western, 7,768; Lake Shore, 5,495; Louisville & Nashville, 3,550; Missouri Pacific, 14,508; Northwestern, 3,300, Oregon Transcontinental, 5,030, Pacific Mail, 3,100; Reading, 8,400. Richmond & West Point, 11,167; St. Paul, 13,475; Texas Pacific, 15,300; Union Pacific, 4,825; Western Union, 5,796, Wabsah Pacific, 3,954.

The stock market to-day during its half session maintained the large volume of business. The market, however, had a tired look and prices sagged away during the greater portion of the session, although the general feeling is still very bullish and the undertone remains strong. The reactionists at every opportunity, when the supporters of the different stocks relaxed their efforts for a moment, made a drive at that point, with the result of making a feverish and irregular market for the time being. Texas Pacific, on the favorable comments from Mr. Gould.

INDIANAPOLIS MARKETS.

The Trade of the Week Closing To-Day Disappointing in Its Volume.

INDIANAPOLIS, May 10. In nearly all departments trade in the week closing to-day fell below the expecfor No. 1 Northern wheat, but no No. 1 hard and grades under that were in a comatose condition and no selling. A good many cars went on sales to arrive. Elevator buyers were the best buyers of the contract grade and were selling summer futures against their cash purchases. Some wheat was being picked up for local grinding, but the millers generally were doing little. Closning to-day fell below the expectations of the early part of the week. The character of the weather is chiefly blamed for the unfavorable results. The dry-goods men had but two good days during the week. In all lines of dry goods, however, firm prices are noticeable. Grocers give more favorable reports; their business has been moderately active. Sugars and canned goods have ruled steady in price, while the bear movement against coffees has at last brought a decline all along the line. Dried and evaporated fruits, as well. line. Dried and evaporated fruits, as well, are meeting with good sale. The produce men have been crippled in their business by light receipts of most articles which they handle in their lines in early May. Receipts of strawberries were light all the week, and much of the stock offered was inferior in its quality. Cabbage is still scarce and rules high in price. Eggs and poultry are arriving more freely, but with this better prices have ruled than for some weeks preceding. Butter is in abundant supply, and unless really choice is hard to dispose of. The really choice is hard to dispose of. The hide market is active at the present range in prices, which rule about loc higher than at the corresponding period last year. Hog products are moving well in a jobbing way; on some descriptions prices rule easy. The flour market is active, but wheat is so high as compared with flour that the millers are not pushing production. Other markets are without special feature.

The week closes with a strong, steady market on all cereals. Notwithstanding the increase in receipts the last week all arrivals have been promptly taken, and the demand was not then supplied. Track bids to-day ruled as follows:

Chickens for Use and Beauty. H. S. Babcock, in May Century.

The American class includes five acknowledged breeds and twelve varieties; the Plymouth Rock, with its single-combed Barred, pea-combed Barred and White varieties; the Wyandottes, Silver, Golden, White and Black; the Javas, Black, Mottled and White; the American Dominique, and the Jersey Blue. Of these breeds the Plymouth Rock is, perhaps, the most popular, though this rank is closely contested by the Wyandotte. The original Plymouth Rock was the variety now called the Barred, and was bred with a single comb. It originated in a cross of a Dominique It originated in a cross of a Dominique male and Black Java females, though, to increase size and improve color other crosses were subsequently used. It was at first hailed with derision, designated as "the great American mongrel," and furiously opposed by those whose pecuniary interests lay in other breeds; but it steadily advanced in favor, and soon compelled even its opponents to accept it. No other new breed of chickens has ever won and maintained through a long course of years so great and so constantly increasing popularity. From this fowl the pea-combed variety appeared as a sport, and a few breeders, recognizing the advantage of the small, low triple comb, especially for those sections of the country where the winter weather hugs the zero point for a considerable period, made use of this variation to establish a new variety. Similarly the white variety was an offshoot from the original stock. or other crosses were subsequently

How to Sow Flower Seeds. Good Housekeeping.

This is one way to sow seeds successfully: Boxes two or three inches deep are filled

Boxes two or three inches deep are filled with garden loam; a little sand, passed through a coarse sieve (a bit of wire netting will answer) to take out stones and all coarse pieces of soil. It should be fine and soft. Fill the boxes within half an inch, take a smooth piece of board and press the soil down hard and smooth. If dry, water and allow it to soak away before sowing. Sprinkle the seeds on evenly. Seeds the size of aster, verbena, stocks, cover by sprinkling on the fine soil just to cover

THE

INDIANAPOLIS JOURNAL

DAILY, SUNDAY and WEEKLY

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reacting public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana. and has correspondents in every town and village of importance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press). in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianapolis Journal a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party, the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Journal gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the Journal regales its readers with the productions of some of the best known literary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will ap in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.
